Algumas Palavras Generosas

Alguns depoimentos favoritos escritos pelos meus clientes.

I had grown a little bit disappointed when I realized that my work would not be taking me in any new, creative design directions. Thankfully, I found Salman Khan and his creativity that goes above and beyond, proving to be exactly what I needed to take.

Aika Chan

Salman Khan is the best designer that I have ever worked with. He is seriously what you would call 'creative': he innovatively solves all sorts of problems and always delivers both prompt and high quality work. I can't recommend him enough!

Arakan Chan

Um Pouco Sobre Mim

I am Salman Khan from Lucknow, India. I am working in an Indian Startup as a User Eperience Designer for the past two years.

I got featured various times on many big and small marketplaces, portfolio websites and blogs. I also received some awards and recognitions from some of the big and small award companies. Besides designing, I like to watch anime, read books and solve sudoku.
